Hello! I am Mustafa Eren. My interest in development and technology started when I was only 10 years old. Over the years, I have gained various knowledge in many different languages and developed countless projects. My passion, which I initially pursued for entertainment purposes and scattered in many different fields, focused entirely on web development in my high school years. I continue to improve myself day by day, learn new information and progress in this field and I will continue to do so.

Experience

RENK BİLİŞİM

Intern

İzmir, Türkiye
June 2024–July 2024

During my 2-month internship, I gained experience working on real projects. I took part in every step of these projects from analysis to development process. In addition to developing some projects with **React.js**, one of the skills I know, and gaining experience here, I gained experience in **Sharepoint Development** and **Power Platform Development**, which I did not know at all.

Skills I developed: React.js, Sharepoint, Power Apps, Power Automate, SPFx

FREELANCE DEVELOPER

2019–Present

With my focus on web development in high school years, I have developed more than 100 projects as a freelancer until today. In these projects, I used many languages, frameworks and technologies, especially PHP, Laravel, HTML&CSS, React.js.

Skills I developed: HTML&CSS, PHP, Laravel, React.js...

Skills

- **Front-End Development**
 - React.js, Javascript, Typescript, HTML, CSS, Figma
- **Back-End Development**
 - PHP, Laravel, Node.js, Python

Education

İZMİR UNIVERSITY OF ECONOMICS

Computer Programming

Refferance

Mehmet HEPKORUCU

hepkorucum@hotmail.com

Das Smart Co-founder, CC Academy Executive Board Member, IUE Lecturer

Some Of My Projects

SIYASET PLATFORMU CLUB WEBSITE

HTML&CSS, PHP

A project I developed with a team of 3 people to be used in the publicity, communication and member procedures of the Siyaset Platformu (Politics Platform) Club, the largest club of Izmir University of Economics.

Technologies I Used: HTML&CSS, Javascript, PHP, MySql

COMICTURKISH WEBSITE

HTML&CSS, PHP

A website that connects comic book readers with comics translated into Turkish. It was a website that included systems such as allow user to read comics in the format of their choice, translators to translate comics and earn income through advertisements, and the ability to read comics offline.

Technologies I Used: HTML&CSS, Javascript, jQuery, PHP, MySql, Python

BETTER OASIS

CSS, Javascript

It is a browser plugin that makes the student information system of my school, Izmir University of Economics, more beautiful and allows it to be customized with different themes.

Technologies I Used: Javascript, CSS

GAMEATHON

HTML&CSS, PHP

A website I developed to be used in the publicity and application process for the Gameathon event organized by my department.

Technologies I Used: HTML&CSS, PHP

CUSTOMER TRACKING AND MANAGEMENT SOFTWARE

HTML&CSS, PHP

A CRM application for a hair transplant clinic that can perform various operations such as recording customer information, financial records, and progress in the process as notes and photos.

Technologies I Used: HTML&CSS, Javascript, jQuery, PHP, MySql

RAMS TÜRKİYE CRM DESIGN

HTML&CSS

I wrote the front-end design of Rams Turkey's CRM using HTML and CSS according to the information and materials provided.

Technologies I Used: HTML, CSS

VANLIFE

HTML&CSS

I designed and coded an eye-catching website for Vanlife, a fictitious team of vloggers traveling the world in their caravans.

Technologies I Used: HTML, CSS

I am currently developing myself in the field of Javascript and React and doing projects in this field.

You can visit my website to view this and many other projects in detail.
